

Languages

“Learn a new language and get a new soul.”

Czech Proverb

Break free from routine and investigate faraway shores by learning a new language this spring. No matter what your reasons— career advancement, cultural expansion, social climbing – learning a language instantly paves new paths in your mind and your life.

Our language classes are as diverse as our students. Whether you take Conversational Arabic or Beginning Chinese, you will learn by engaging all of your senses. Hear it. Speak it. Write it. Read it. We give you plenty of opportunities to practice the language you choose to learn.

Build a bridge to another culture by learning its native tongue, and in the process, walk across to a new world, meet new friends, and open yourself to new experiences that you once only dreamed of having.

For certificate programs and contact information, see page 88.

Are you interested in teaching English abroad?

Our intensive four-week Teaching English as a Foreign Language (TEFL) program is specifically designed for people wanting employment abroad and gives you the skills to implement English lessons with a wide range of proven techniques. No formal training or teaching experience required.

When in Rome...

Cultural intelligence is the key to global commerce.

Pave the way for your future in global commerce. Our customized consulting and contract training programs provide quality instruction and insight geared to prepare your leaders, managers and employees with the cultural intelligence required to succeed in a diverse workforce. No longer a luxury, the ability to conduct business appropriately with people throughout the world is a requirement in today's competitive global market.

Avoid the cultural faux pas that can instantly derail a business deal. In India, your shoes stay outside the house. In the Middle East, your American boots stay off the desk. Do not present a clock to someone from China. Learn business etiquette and the traditions of different countries and forge business partnerships, foster friendships and enhance your bottom line.
