CERTIFICATES IN

INFORMATION TECHNOLOGY

ARE YOU PREPARED FOR YOUR FUTURE?

How can you be a stand-out in the Information Technology (IT) arena? By mastering the skills of your profession with an IT Certificate or Professional Achievement Award from UCR Extension.

The power is in your hands when you choose from a comprehensive selection of professional and continuing education programs, all designed to prepare you for your future. The rapid and widespread use of computers and information technology has generated a great need for highly trained individuals who are proficient in various IT job functions. UCR can train you to get there.

And because you'll be learning at a UC, you're assured of top-notch instructors who provide real-world, practical experience. Class sizes are small to ensure you receive the personal attention you need. An added benefit of these programs is that they are aligned with leading industry standards to help you prepare to earn valuable certifications.

To broaden your knowledge and your career path, enroll in one of UCR Extension's exceptional programs in Information Technology. Start gaining the edge today.

Microsoft, Oracle, Cisco and other courses and certificate programs at UCR Extension prepare students for official certification exams.

ADMISSION

Take individual courses or fulfill all of the requirements to earn your UCR Extension certificate or Professional Achievement Award. Whichever you choose, you will gain the personal power that comes through learning new skills. Be assured that you are receiving education that is backed by the UC tradition of excellence.

APPLICATION FOR CANDIDACY

To earn a UCR Extension certificate or Professional Achievement Award, you must establish your candidacy by filing an application along with a nonrefundable application fee. We recommend you do this before the third class. Apply in person at the UCR Extension office or online at www.extension.ucr.edu/certificates.

WHAT YOU'LL LEARN

Participants will:

- Explore the latest technologies with hands-on labs and simulations.
- Learn the latest practical skills, tips and best practices to ensure they can excel in their jobs.
- Earn valuable IT certifications from Oracle, Microsoft, Cisco, CompTIA, and others.
