Free

Two short documentary films will be screened to highlight Korea's past and present achievements. The first film illustrates Korea's artistic legacies from its 5,000 year long history, and the second film shows the industrial advancements of Korea after the Korean War. Our films aim to introduce Korea showing her past and present. While the ancient artifacts from the first film will demonstrate the incredible devotion and perseverance of the artisans at the time, the second film will illustrate how such characteristics have transformed the country into the 7th largest export country in the World.

The Korean Spirit & Culture Promotion project (KSCPP) is a 501(c)(3) non-profit organization that is dedicated to raising awareness of Korean history and culture. In appreciation for the United States support for Korea during the Korean War and in the years that followed, since 2009, KSCPP has held 1,100 presentations about the history and culture of Korea throughout the country.
