TEACH FOR EMOTIONAL AND ACADEMIC SUCCESS

Specialized Study Program in Social and Emotional Learning

Academic achievement is more than good grades and proficiency in various subjects. Learn what that other component is that will give your kids an advantage now and in the future.

First, identify Social Emotional Learning (SEL), the process that leads to students' ability to make sound and ethical decisions and approaches, and review the research that supports it. Understand how SEL is pivotal to positive relationships and emotional connections. Learn about widely used measures, such as the Collaborative for Academic Social and Emotional Learning (CASEL) Social Emotional Competencies, and how they can be applied to increase students' self-awareness, integrity, social awareness, and more. Then, put your understanding of both science and concept into practice by creating a plan that includes CASEL and the Formative Five skills for your own classroom. Use your plan immediately and start helping your students grow toward bigger expectations and more ethical, inclusive decision-making.
