

How to Import QTI files

Tutorial Summary: This tutorial will guide you through the process of importing QTI files into Canvas. QTI files are publisher test banks which instructors can use to easily make quizzes within Canvas. Importing a QTI file into Canvas will automatically create a quiz for you as well as give you the ability to use those test bank questions to create your own quizzes.

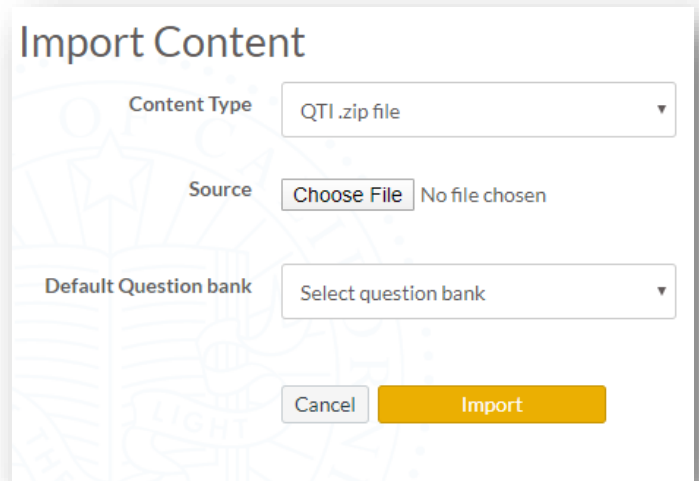

Step 1: Locate your QTI zip folder and extract it. After extracting it will generate a new identical folder that is not a zip.

New folder generated from extracting

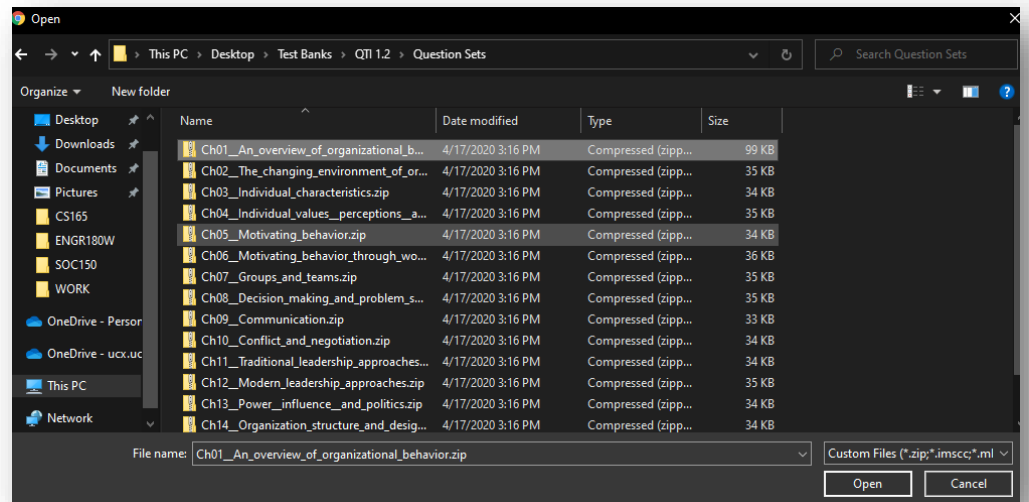

Step 2: Go to your Canvas course and click on “Settings” on the left. Click on “Import Course Content” on the right.

Step 3: Click on “QTI.zip file” from the Content Type drop down menu.

Step 4: Click on “Choose File” and locate your test banks from the newly extracted folder.

Step 5: Select Import and wait for it to finish.

Step 6: Once finished your test banks should appear within “Quizzes” and in the course questions banks.
